BIOGRAPHY

PUBLICATIONS

“Illustrating means creating Art for children, penetrating their world on tiptoe, with great responsibility and respect.”

Born in Pordenone in 1972, I carried out studies in advertising graphics and photography. The passion for drawing brought me closer to the world of illustration for children, counting about fifty publications with Italian, European and non-European Publishers. Currently I am teacher of illustration at the International School of Sarmede Štěpán Zavřel (IT).
